

OHIO SUPERCOMPUTER CENTER WORKSHOP: Computing Services to Accelerate Research and Innovation

Thursday, March 17, 2016 | 10:00–11:30am and 1:00–2:30pm

Ohio Supercomputer Center

An OH·TECH Consortium Member

Two identical workshops will provide an introduction to Ohio Supercomputer Center resources and how to access them.

Topics include:

- What is OSC? How can OSC help you?
- High performance computing concepts
- Hardware and software available at OSC
- Details on our newest clusters
- How to connect and log in
- How to use storage and file systems

Where:

The University of Cincinnati

Morning session:

Langsam Library, Room 475

Afternoon session:

Health Sciences Library (HSL), Medical Sciences Bldg (MSB), Room G003I

No Prerequisites Required

Delivery Method:

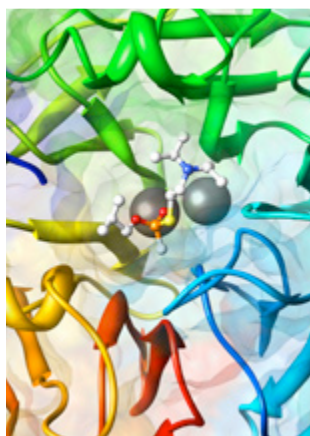

Slide presentation and open discussion. A recent copy of the materials will be posted online before the workshop.

Who Should Attend:

New OSC clients or researchers interested in learning about OSC resources.

What You Will Need

Participants who bring a laptop computer will be able to connect to the supercomputers during the workshop. OSC workshop accounts will be provided.
