

OHIO SUPERCOMPUTER CENTER WORKSHOPS: Introduction to OSC; Big Data Analytics & Spark

Tuesday, March 13, 2018 | 10:30–noon and 1:30–3:30pm

Ohio Supercomputer Center

An OH·TECH Consortium Member

IT@UC Research & Development will be hosting the Ohio Supercomputer Center for two workshops: Introduction to OSC; and Big Data and Analytics & Spark.

Introduction to OSC topics include:

- What is OSC? How can OSC help you?
- Hardware and software available at OSC
- Introduction to OSC's web portal, OnDemand

Big Data Analytics & Spark topics include:

- Introduction to Hadoop and Spark using Python
- Hands on exercises using OSC clusters
- Some command line experience recommended

Where:

The University of Cincinnati

Morning session:

West Campus, Langsam 475
From 10:30 a.m. to noon

Afternoon session:

East Campus, MSBRCV, E602
From 1:30 to 3:30 p.m.

No Prerequisites Required

Delivery Method:

Slide presentation and hands-on demonstration.

Who Should Attend:

New OSC clients or researchers interested in learning about OSC resources.

What You Will Need

Participants who bring a laptop computer will be able to connect to the supercomputers during the workshop. OSC workshop accounts will be provided.
